Why does my Custom Holdings Path for copies not auto-populate the lender string?

Last updated: Mon, 22 Jul 2019 13:06:05 GMT

Applies to

- WorldShare ILL
- Tipasa

Answer

WorldShare ILL cannot select lenders on copy requests. This is due to the fact that holdings on specific articles are not necessarily reflected in OCLC knowledge base holdings.

You can select lenders manually by following these steps:

1. Go to the holdings view page of your request
2. Optionally select a custom holdings path
3. Select the desired lenders by clicking "Yes" in the "Supplier" column: this fills your Lender String
4. Update or create your request using the blue button on the right side of the now-filled lender string
