Can I create additional administrator accounts in QuestionPoint?

Last updated: Thu, 14 Jun 2018 21:25:05 GMT

Applies to

- QuestionPoint

Answer

Because the QuestionPoint system allows only one 9-digit administrator authorization per library, you cannot create additional Institution Administrator or Subscription Group Administrator accounts for your library or group. OCLC staff cannot create additional ones either.

You can share your Administrator authorization and password with others whom you want to perform administrator duties.
