Does FirstSearch offer relevance ranking of search results?

Last updated: Thu, 05 Jul 2018 14:31:21 GMT

Applies to

• FirstSearch

Answer

Relevance ranking is available for users to select when they enter a search. If they select it, FirstSearch analyzes all the records found by the search and lists the records in order of relevance. If more than 1,000 records are found, only the first 1,000 are listed.
