Why do I have to print labels twice after editing them?

Symptom

- Make an edit to a label and print. The unedited label prints. Print a second time and edited label prints.

Applies to

- Connexion client
- Label program

Resolution

1. Temporarily turn antivirus off. If that’s not possible, skip this step.
2. Uninstall and reinstall Connexion client or Label program to fix the issue.
3. Re-enable the antivirus if step one was executed.
