Why does our New Titles List not show call numbers and shelving locations for the items listed?

Applies to

- WorldShare Reports

Answer

The New Titles Report takes a snapshot of when the LHR is created. If there's no call number or shelving location at that time, there will not be a call number or shelving for that title in the New Titles List.

Additional information

Additional information about the New Titles List report can be found on the Cataloging/Collection report help page.
