How do I correct the email address a Docline Library has for me?

Last updated: Fri, 28 Dec 2018 20:32:01 GMT

Symptom

- ILLiad site is sending requests to Docline sites and they are trying to email her, but the email is incorrect.

Applies to

- ILLiad.

Resolution

ILLiad sites keep their own Lender Address table. They do not use the Constant Data Record from OCLC. So the Borrowing Library needs to contact the Lending Library with their proper email address. The Lending Library will need to update their Lender Address table.
