How do we get a group-based report on Web-based statistics?

Last updated: Thu, 27 Sep 2018 15:18:14 GMT

Applies to

- ILLiad

Answer

OCLC ILLiad automatically generates group-based reports. Within ILLiad, you indicate which libraries belong to which groups. You only have to do this once. From that point on, ILLiad will generate group-based statistics based on the groups you have defined.
