Why is the text jumbled on the left side when I go into a WorldCat knowledge base collection?

Last updated: Fri, 12 Oct 2018 16:49:35 GMT

Symptom

- Filters and column headers are mixed together on the left hand side of the screen when viewing collection title lists in Google Chrome browser.

Applies to

- WorldCat knowledge base
- WorldShare Collection Manager

Resolution

Check to see if you have the uBlock ad-blocking software extension installed in your browser. You can check this using the following instructions:

1. Click the three-dot icon in the upper-right corner of your browser.
2. Select More tools > Extensions.
3. If you have it installed, you'll see it in that list of extensions.
4. To turn it off, click the blue line with a dot in the lower right corner of the uBlock box.
