How do I change my default pickup location for holds in WorldCat Discovery?

Last updated: Wed, 11 Dec 2019 17:24:57 GMT

Applies to

• WorldCat Discovery

Answer

If your default location is not being displayed first in the pickup location options in Discovery, you will need to contact OCLC Support and ask them to make a change to the order of your pick-up locations. Ensure you have determined which location should be your default location (displays 1st).

Another option is available, where an extra field can be added, to allow the patron to pick their own preferred pickup location option. Choose your Pick-up Location can be an additional option. If this is required, you will also need to request OCLC Support to make this change for you.
