Answer

If you click on the title of one of the results of a search in the Acquisition Module using Discover Items, it can have different effects depending on the item clicked.

1. If the item is not a serial, the details screen is displayed.
2. If item is a serial, the Issues section is displayed.
   - If the issue section contains issue, then Receive Issue tab is selected.
   - If the issues section does not contain issues, then the Manage Issues tab is selected
