When I click “Refresh from WorldCat Registry” it caused an error, “An error occurred while saving your library’s settings: 6”

Last updated: Mon, 14 Jan 2019 20:27:09 GMT

Applies to

- WorldShare Collection Manager

Answer

You may be able to get this to work if you set your symbol to None. After doing this, please try again to "Refresh from WorldCat registry".

Additional information

Additional information about where your symbol settings are located can be found in our documentation about the OCLC symbol.
