Why do I not see a title in the Receive / Invoice View items list?

Last updated: Wed, 08 Apr 2020 14:36:34 GMT

Symptom

- Titles you expect to see don't come up in the View Items list under the Receive and Invoice button

Applies to

- WorldShare Acquisitions

Resolution

Here are some reasons why titles don't appear in your list:

- The order the title is on has not been Placed.
- The Action drop-down is set to Receive, but the title has already been received.
- The Action drop-down is set to Invoice, but the title has already been invoiced.
- The Action drop-down set to Receive & Invoice, but the title you want has been Received and/or Invoiced already.
- The Processing Type that you are using to Receive and Invoice does not match the Processing Type of the item.
