Has a new release updated the hold parameters we have set in Service Config for Worldcat Discovery?

Symptom

- Has a new release updated the hold parameters we have set in Service Config for Worldcat Discovery?

Applies to

- WorldCat Discovery

Resolution

Short introduction or instructions to follow these steps:

1. Log in to Service Config
2. The parameters seem to have changed back to default settings.

Additional information

New WMS releases do not make automatic changes to an individual library’s parameters within Service Config.
