The icons from my Amlib toolbar have disappeared

Last updated: Tue, 02 Apr 2019 06:52:32 GMT

Symptom

- When I bring up my Amlib toolbar there are blocks of colour but no icons to assist me in choosing Borrower, Stockitem etc.

Applies to

- Amlib toolbar

Resolution

It is to do with the Windows display:

1. The toolbar only works correctly if the display settings within Windows are set at 100%.
2. Go to Windows > Control Panel > Display and set to smaller (100%) and apply.
3. Log off your computer and go back into Amlib and your Menu items should now display correctly.

Additional information

- A possible alternative option if you need the Display setting to be larger, is to have the columns set to 1 column. Having it set this way enables the tooltips to display across the band of colour to enable you to know what the blocks of colour represent
