How long does it take for Service Configuration changes to appear in WorldCat Discovery?

Symptom

• You’ve made updates to an OCLC product in the Service Configuration tool and want to know how long it will take for the changes to take effect.

Applies to

• WorldCat Discovery
• WorldCat Registry

Resolution

Most changes made in the Service Configuration tool will be updated throughout the system just a few minutes after the change is made. Changes made to the WorldCat Registry and IP addresses tabs take an overnight update before they will appear in the live system.
