The OCLC Cataloging Express service provides an easy-to-use Web interface for copy cataloging. Copy cataloging is selecting an existing bibliographic record from WorldCat®, adding local data to it, and then adding the record to your local catalog.

- **Get started**
  
  Find information about the CatExpress interface, process, and hardware and software requirements. Discover how to set browser and export options.
  
  ◦ About CatExpress
  ◦ Action buttons
  ◦ Customize the system interface
  ◦ Hardware and software requirements
  ◦ Home page and navigation bar
  ◦ Quick reference
  ◦ Set export options
  ◦ Set options

- **Search and catalog**
  
  Learn how to perform basic and advanced searches as well as how to add local data and multiple location fields, print labels, and export records.
  
  ◦ Add local data
  ◦ Add multiple Location (852) fields
  ◦ Advanced search
  ◦ Basic search
  ◦ Cataloging basics
  ◦ Export records
  ◦ Fix errors
  ◦ Print labels
  ◦ Search results

- **Data fields**
  
  Find information about the Data field interface, process, and hardware and software requirements. Discover how to set browser and export options.
  
  ◦ Add local data
  ◦ Add multiple Location (852) fields
  ◦ Advanced search
  ◦ Basic search
  ◦ Cataloging basics
  ◦ Export records
  ◦ Fix errors
  ◦ Print labels
  ◦ Search results
Find information about data fields in CatExpress and how to map your local system fields to available data fields.

- Call number: Class, Cutter, Type (09x) field
- Data fields mapped to local system fields
- General Note (500) field
