Why can't I see the WMS Place Hold Form Display in my Service Configuration?

Last updated: Mon, 08 Jul 2019 13:51:26 GMT

Applies to

- WorldCat Discovery

Answer

The WMS Place Hold Form Display is not shown because the hold form has not been activated on any items.

- If for "Display Level 1 fulfillment button" you select **Always** the WMS Place Hold Form Display will appear.
- If for "Display Level 1 fulfillment button" you select either of the **It depends** options, and change any of the dropdown selections from **None**, the Hold Form Display will also appear.
