Creating a listener

Learn how to create a listener using the Amlib SIP2 Manager.

1. From the main SIP2 Manager screen Select **New**
2. Select an **Instance** to use from the drop down menu
3. Enter the IP address or host name of where the client will be connecting from
4. Choose and **Amlib** username and a **Location for Stats**

![Screenshot of the SIP2 Manager interface showing options for creating a listener]

5. Select **Apply** and now the SIP2 Service should be ready to accept connections from the specified IP or Hostname
6. See the full **SIP2 Manager Procedure Guide** available on the OCLC Website, from under Downloads and Software Updates > Version 6.1 > Installation Guides > SIP2 Service for more information
