How can I access JIT information and updates

Last updated: Tue, 01 Oct 2019 12:13:20 GMT

Applies to

• WorldCat knowledge base
• WorldCat collection manager

Answer

JIT (just-in-time) updates contain information about new content providers and collections that are now available in the WorldCat knowledge base. Although this information eventually appears in our monthly update notes, we want to let you know about them as soon as they are available for your use.

To access JIT online

• access the OCLC Community Center
• Under WorldShare Collection Manager click on the News link.
• Once there you can read current and previous JIT information.

To subscribe to JIT emails

• Follow the steps above to access the JIT screen
• Click the hyper-linked title (example: JIT WorldCat knowledge base data updates for May 20-24, 2019)
• On the new screen, click the gray Follow button
