Symptom

- You want to set up a direct link to one of EBSCOhost's sites and you need help creating the link.

Applies to

- EZproxy

Resolution

In order to set up the Custom Link, you need to follow these steps:

1. Go to EBSCO Direct URL Builder site.
2. Follow the steps on the page to generate the URL.
3. Update your Proxy Config.txt by adding the URL as explained on the EBSCO site.
