**Check Payment Link**
- MSI, 3.3MB, released 4 June 2014, updated 30 June 2014
- For customers who have or want to change to Double-entry accounting. Check and Create Payment Links client enables the user to create links between unlinked financial transactions, it also has the ability to update the Borrowing Owing balances where these are out of alignment. This will need to be run when you have installed the FinsTransUpgrade for double accounting. Please download install guide here.

**FinTrans Upgrade**
of this program however it is compatible with Amlib Version 5.3 & 5.4.

- MSI, 3.4MB, released 4 June 2014
- Financial Transactions Upgrade application MUST be run to perform several important modifications to the Finance SQL tables. This procedure only needs to be performed ONCE on the Amlib server databases.
- Sites wanting got use use Double-Entry accounting in the Amlib client will need to:

1. **Install** the Financial Transactions Upgrade application
2. Configure the connection between the Financial Transactions Upgrade application and the Amlib SQL databases using the Amlib Configuration Manager (installed at the same time)
3. Decide which user-defined Circulation Transaction Types are Debits and which are Credits
   Edit the **FinTypes.xml** file (if required) to ensure Financial Types are matched correctly
4. **Run** the Financial Transactions Upgrade application to re-index the Finance module of the Amlib client and reconfigure existing Financial transactions to use correct double-entry methodologies.
