How do I change the IFM amount for one item?

Last updated: Thu, 16 Jan 2020 16:37:46 GMT

Applies to

• WorldShare ILL
• Tipasa

Answer

You can change the amount in the request itself. You will then want to make the request conditional so the borrower knows they may need to change their IFM max cost. If the lending library marks the request as "Yes" and the IFM amount is higher than their max cost, the lender will see a pop up message about this and the borrower will not be charged that amount.
