Launch Local Holdings Maintenance option opens to Bibliographic record rather than LHR

Last updated: Thu, 27 Feb 2020 19:58:06 GMT

Symptom
- When you select Launch Local Holdings Maintenance from the Tools menu in Connexion client the title record opens rather than going to the LHR

Applies to
- Connexion Client
- Connexion browser

Resolution
Make sure that Connexion browser Search > WorldCat > Command line Search and Keyword/Numeric Search boxes have the drop-down Show if Single Record Found set to Local Holdings. Clear your cache and delete the oclc.org cookies in your browser, then try again. If the issue persists, contact OCLC Support with your cataloging authorization number, symbol and name.
