Web Alerts not working in 9.1 ILLiad Web pages

Last updated: Wed, 08 Apr 2020 13:51:20 GMT

Symptom
Certain web alerts not displaying properly if you are using the 9.1 web pages.
The System and Username webalerts work, but the Status and DeliveryLocation ones are not working.

Applies to
Only the 9.1 web pages are affected.

Resolution
The workaround is to add the alerts tag to your web page.

<#ALERTS>
