I am trying to get usage stats but I get an error message.

Last updated: Thu, 15 Oct 2020 15:26:26 GMT

Applies to

- OCLC Usage Statistics

Answer

If the error you are seeing says:

Request Entity Too Large the requested resource /cusp/report does not allow request data with GET requests, or the amount of data provided in the request exceeds the capacity limit.

1. Clear the cache and cookies of the web browser you are using
2. Sign out, and back into the OCLC Usage Statistics site.

This should clear the error message and allow you to access your statistics. If it does not, or you are getting a different error then above, please contact OCLC Support
