The Transaction Date format is incorrect in the ILLiad Client

Symptom

- You are seeing the Transaction Date format as dd-mm-yy instead of mm-dd-yyyy and you need it fixed

Applies to

- ILLiad

Resolution

ILLiad is taking its format from the computers Date format, so you need to update the settings by following these steps.

1. Go to your computer settings.
2. Search for the Regional Date Format.
3. On the right side, go to the Additional date, time, & regional settings.
4. Click on Region.
5. Change the Date and Time Formats so it matches what you want.
6. Choose OK.
7. Close the Settings windows.
8. Open up the ILLiad Client again and the format should be correct.
