When I log into Service Configuration I do not see the WMS Circulation tab

Symptom

• The WMS Circulation tab does not appear for you when you log in to Service Configuration via WorldShare.

Applies to

• Service Configuration
• WMS Circulation

Resolution

Make sure you are logged into WorldShare with a username that has the Circulation Admin role assigned. If problems persist, contact OCLC Support with your OCLC Library symbol and the username you are logging in with.

Additional information

There is more information on Circulation roles.
