How do I create deep links to my library catalog if I don't have WorldCat Discovery?

Last updated: Wed, 11 Nov 2020 05:58:43 GMT

Applies to

- WorldCat Registry
- Service Configuration

Answer

Deep linking can be complex, given how many vendors there are, and each code search strings a little differently.

- Check the page Manual Configuration and Vendor-Specific Examples for your vendor
- Follow instructions to create ISBN, ISSN and OCLC Number
- Test the strings using another item you know your library holds
