When you subscribe to a WorldShare service, you can manage your user accounts and alert messages using the Admin module. You must have one of the Administrative roles assigned to your account in order to access the Admin module. See how to [Add services and manage staff accounts](https://help.oclc.org/WorldShare/WorldShare_Admin).

- **Get started**
  - No image available
  - Get started with the WorldShare Admin tab.
    - Roles to access WorldShare Admin
    - Set or reset your password
    - Sign in to Admin

- **Account Info**
  - No image available
  - The Account Info section contains information related to your WMS or third-party authentication method. Account Info is updated every time you ingest user data.
    - Account Info

- **Additional Info**
  - No image available
  - The Additional Info section contains information about the user that was entered in the additionalInfo attribute of the XML file that was created as part of the data ingest process.
    - Additional Info

- **Alerts Management**
  - No image available
  - Alerts are messages that can be sent to users within the WorldShare interface. If you use WorldShare Circulation or WorldShare License Manager, you can configure predefined alerts to be sent to users when a specific action occurs within the system.
    - Configure Alerts

- **Basic User Data**
  - No image available
  - In the Basic User Data section, you can enter personal, contact, and circulation information about your users.
• Basic User Data

• Custom Data

No image available

The Custom Data section contains four fields that can be used to store additional institution-specific information about the user. If you use WorldShare Circulation, the Custom Data fields will also appear in the patron's account in the Custom Data section of the Profile tab.

• Diagnostics

No image available

The Diagnostics section contains old barcodes and information about the staff member who created the user account and the staff member who last modified the user account.

• Notes

No image available

You can use the Notes section to add public or staff notes about a user. Note: This section will appear empty if no notes have been added.

• Roles

No image available

Find descriptions of available roles. Roles determine what actions users can perform in the system. The roles that you see in your Admin module may vary according to your own roles or the products your library subscribes to.

  ◦ OCLC Service Configuration roles
  ◦ Acquisitions roles
  ◦ Alert roles
  ◦ Record Manager roles
  ◦ Circulation roles
  ◦ Collection Evaluation roles
  ◦ Collection Manager roles
  ◦ Course Reserves roles
  ◦ WorldCat Discovery roles
  ◦ Everyone role
  ◦ Interlibrary Loan roles
  ◦ License Manager roles
Platform Management roles
◦ Reports and Report Designer roles
◦ User Management roles
◦ Web Service Keys Admin role

• Proxies

No image available

Proxies allow you to create a relationship between two user accounts. In the Proxies section of an account, you can add another user to be the primary user's proxy.

◦ Proxies

• User Management

No image available

Use the Admin module to manage user accounts. Users may consist of staff, patrons, or both. If you use WorldShare Circulation, you will see both patron and staff accounts in the Admin module. Any patron accounts that you create in the Circulation module can also be accessed in the Admin module.

◦ Examples of roles by library position
◦ How to assign roles to users
◦ Search for users
◦ Create, edit or delete user accounts

• Troubleshooting

No image available

Find frequently asked questions (FAQ), instructions on how to complete specific tasks (How-to), and troubleshooting steps (Troubleshooting).

◦ A staff member has left. How do I delete their account and will their work be lost?
◦ Special characters/Diacritics are displaying as question marks in my patron records
◦ Does WorldShare authorization require using only lower case letters in a user account email address?
◦ Every time I sign into WorldShare, the "Select branch for current location" box appears.
◦ How can I change my account details?
◦ How can I notify users to renew their accounts before their Expiration Dates?
◦ How do I change my OCLC Community Center email address?
◦ How do I determine what authentication method my library is using?
◦ How do I search for users with an apostrophe in their name?
◦ How do I stop emails from the Community Center from coming to my inbox?
◦ How do we add the BIBCO role to our accounts?
◦ I’m an Admin for WorldShare, but I don’t see the Admin tab when I log in
Is there a way to search by User ID at Source
○ Is there a way to see a time and date of a patron profile changes?
○ I am getting an "email address invalid" error message when trying to log into WorldShare
