Recommended actions

For this release, we recommend that you review the following checklist and complete the relevant tasks so that you can adjust your policies and workflows and train your staff. This checklist identifies updates that we have determined as significant for most institutions. We encourage you to review all of the items in the release notes to determine whether there are items that might require additional action or follow up by your institution.

Administrative actions

These items require immediate action or decisions.

Workflow improvements

Improved search interface

In Discover Items, labels have been added so that you can more easily identify each of the fields.

More easily view the lender string and supplier

Fields for the lender string and supplier have been placed higher on the page to help you more easily review details for submitted and supplied requests.
Bug fixes

Refund button now available for closed requests

Prior to this release, the Refund button for Interlibrary Loan Fee Management (IFM) was not available for closed requests. The button now displays for closed requests that are eligible for a refund, that is, requests for which an IFM debit has occurred but no refund credit has been given.
