How can I get my book images to appear in the catalog summary display?

Last updated: Thu, 30 Jan 2020 14:18:17 GMT

Applies to

- WorldCat Discovery
- WorldCat.org
- FirstSearch

Answer

OCLC does not load cover art for individual titles due to the large volume of titles covered in WorldCat, but instead we load large files from the following providers:

- Baker & Taylor's Content Café 2 service
- Firebrand's Eloquence service
- Nielsen's BookData service
- TiVo

We recommend that you provide your cover art to as many of these providers as possible to ensure it will be displayed in all of OCLC's products and services.
